Introduction

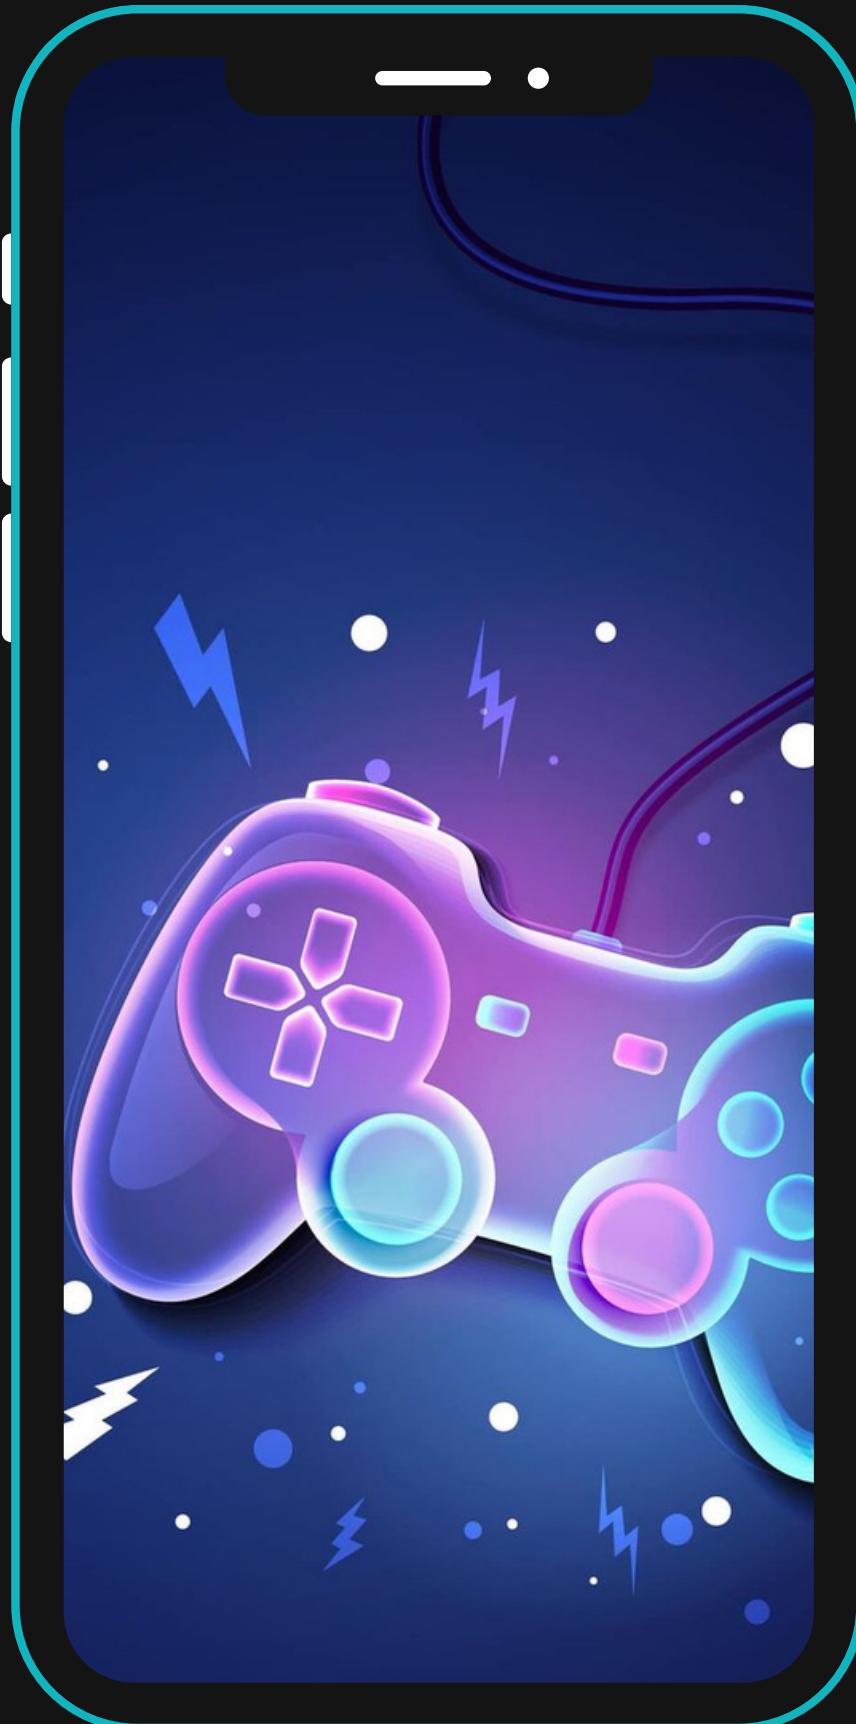

- GameJinxx is an Online Gaming platform where an user can play any game on our website without actually downloading any applications on our desktop, and we aim to bring the retrfashion of Gaming Parlour in India but this time not offline but Online.
- It Provides a platform to play engaging and popular games at one place with low data usage and without downloading any application.

About the game

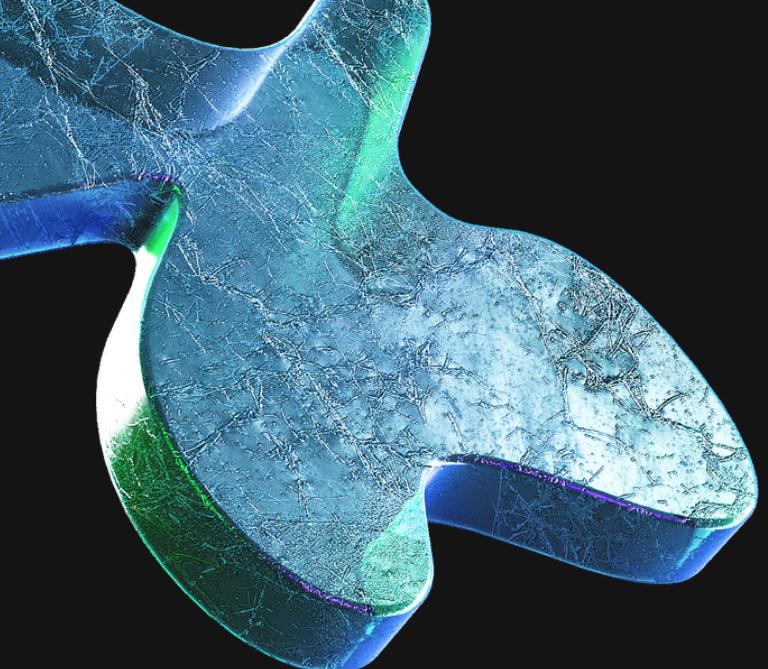

- **Endless Runner:** In this game, a dinosaur needs to save itself from a dragon while running continuously to make high score. This is a single player game.
- **Classic Snake:** This is a classic snake game which we all have been playing from our childhood. In this game, the snake needs to ear scores by eating the ball but it will also increase its size. The snake will die if it touches itself or the frame.

About the game

- **Tic-Tac-Toe:** This is a two-player traditional criss-cross game. The player who succeeds in placing three of their marks (X or O) in a horizontal, vertical, or diagonal row is the winner.
- **Covid Fighter:** In this game a fighter needs to save itself from obstacles looking like CORONAVIRUS and reach to the diamond to win the game. This is a single player game.

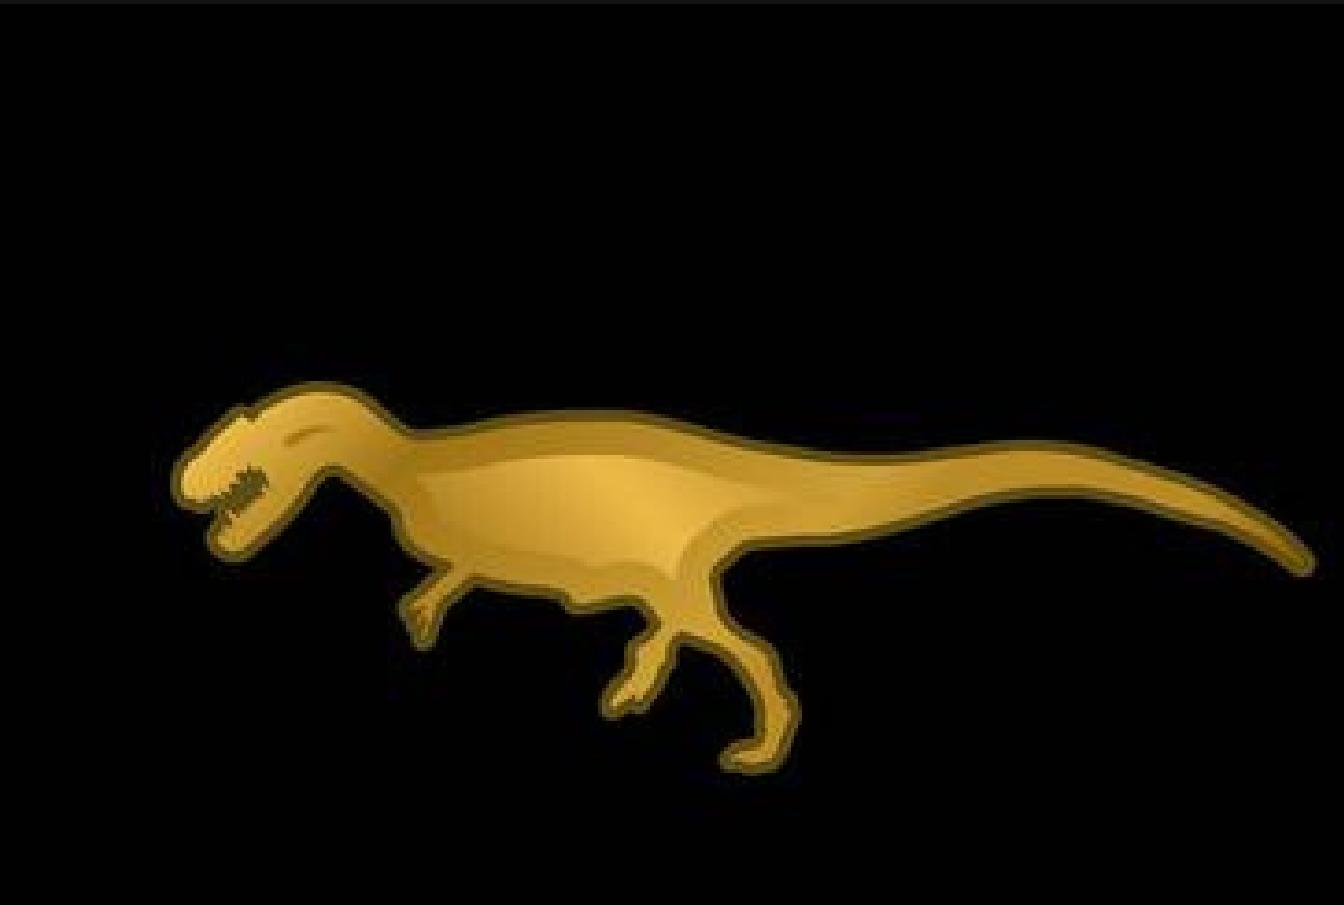

Teck Stack

Endless Runner

- In a endless runner game, we continuously “run” through the game until an obstacle stops you with the point being to achieve the highest possible score.
- In this game, a dinosaur needs to save itself from a dragon while endlessly running continuously to make high scores. This is a single player game.

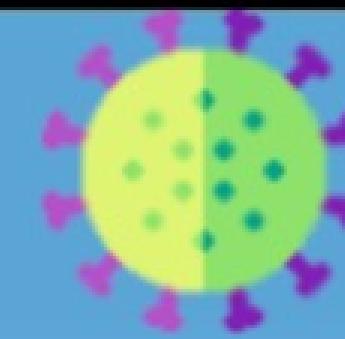

COVID FIGHTER

- In this game a fighter needs to save itself from obstacles looking like CORONAVIRUS and reach to the green diamond to win the game. .
- This is a single player game. The theme is desert based.
- In this game an artificial clone is going to pass several covid barriers created or programmed by the programmer.

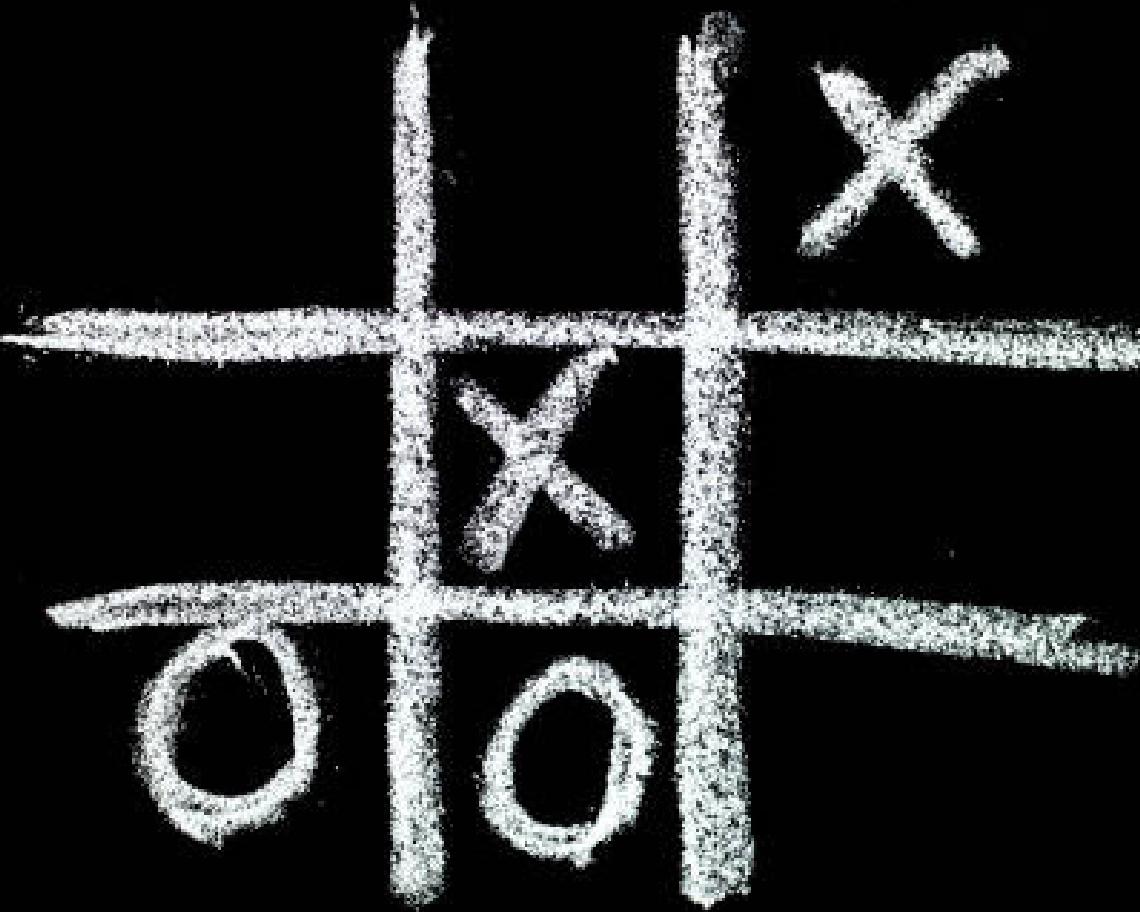

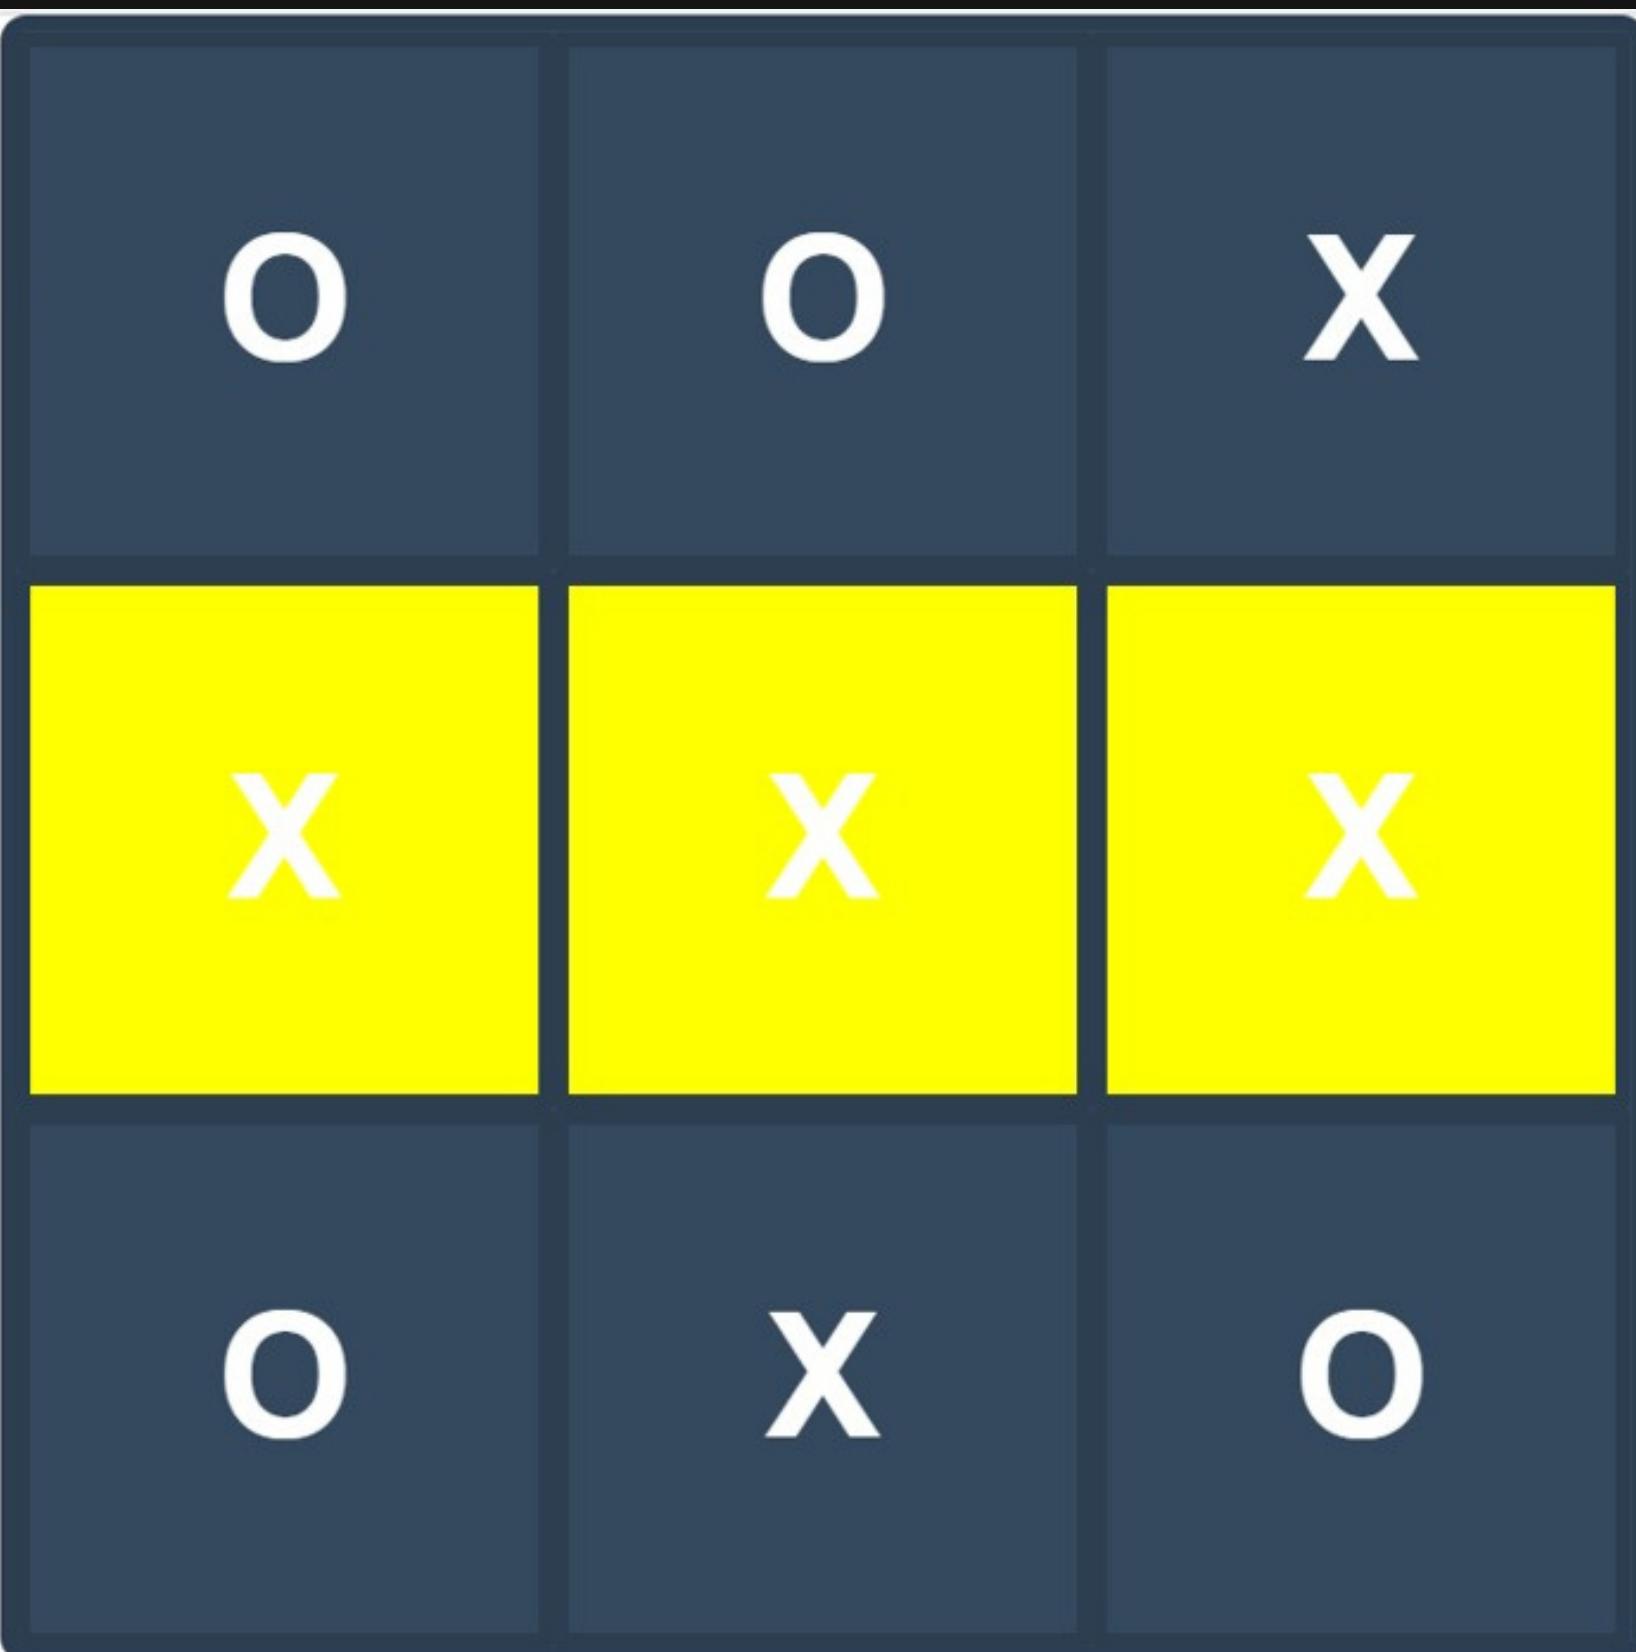

Health: 100

TIC-TAC-TOE

- This is a two-player traditional criss-cross game.
- The player who succeeds in placing three of their marks (X or O) in a horizontal, vertical, or diagonal row is the winner.
- This is a game in which two players seek in alternate turns.

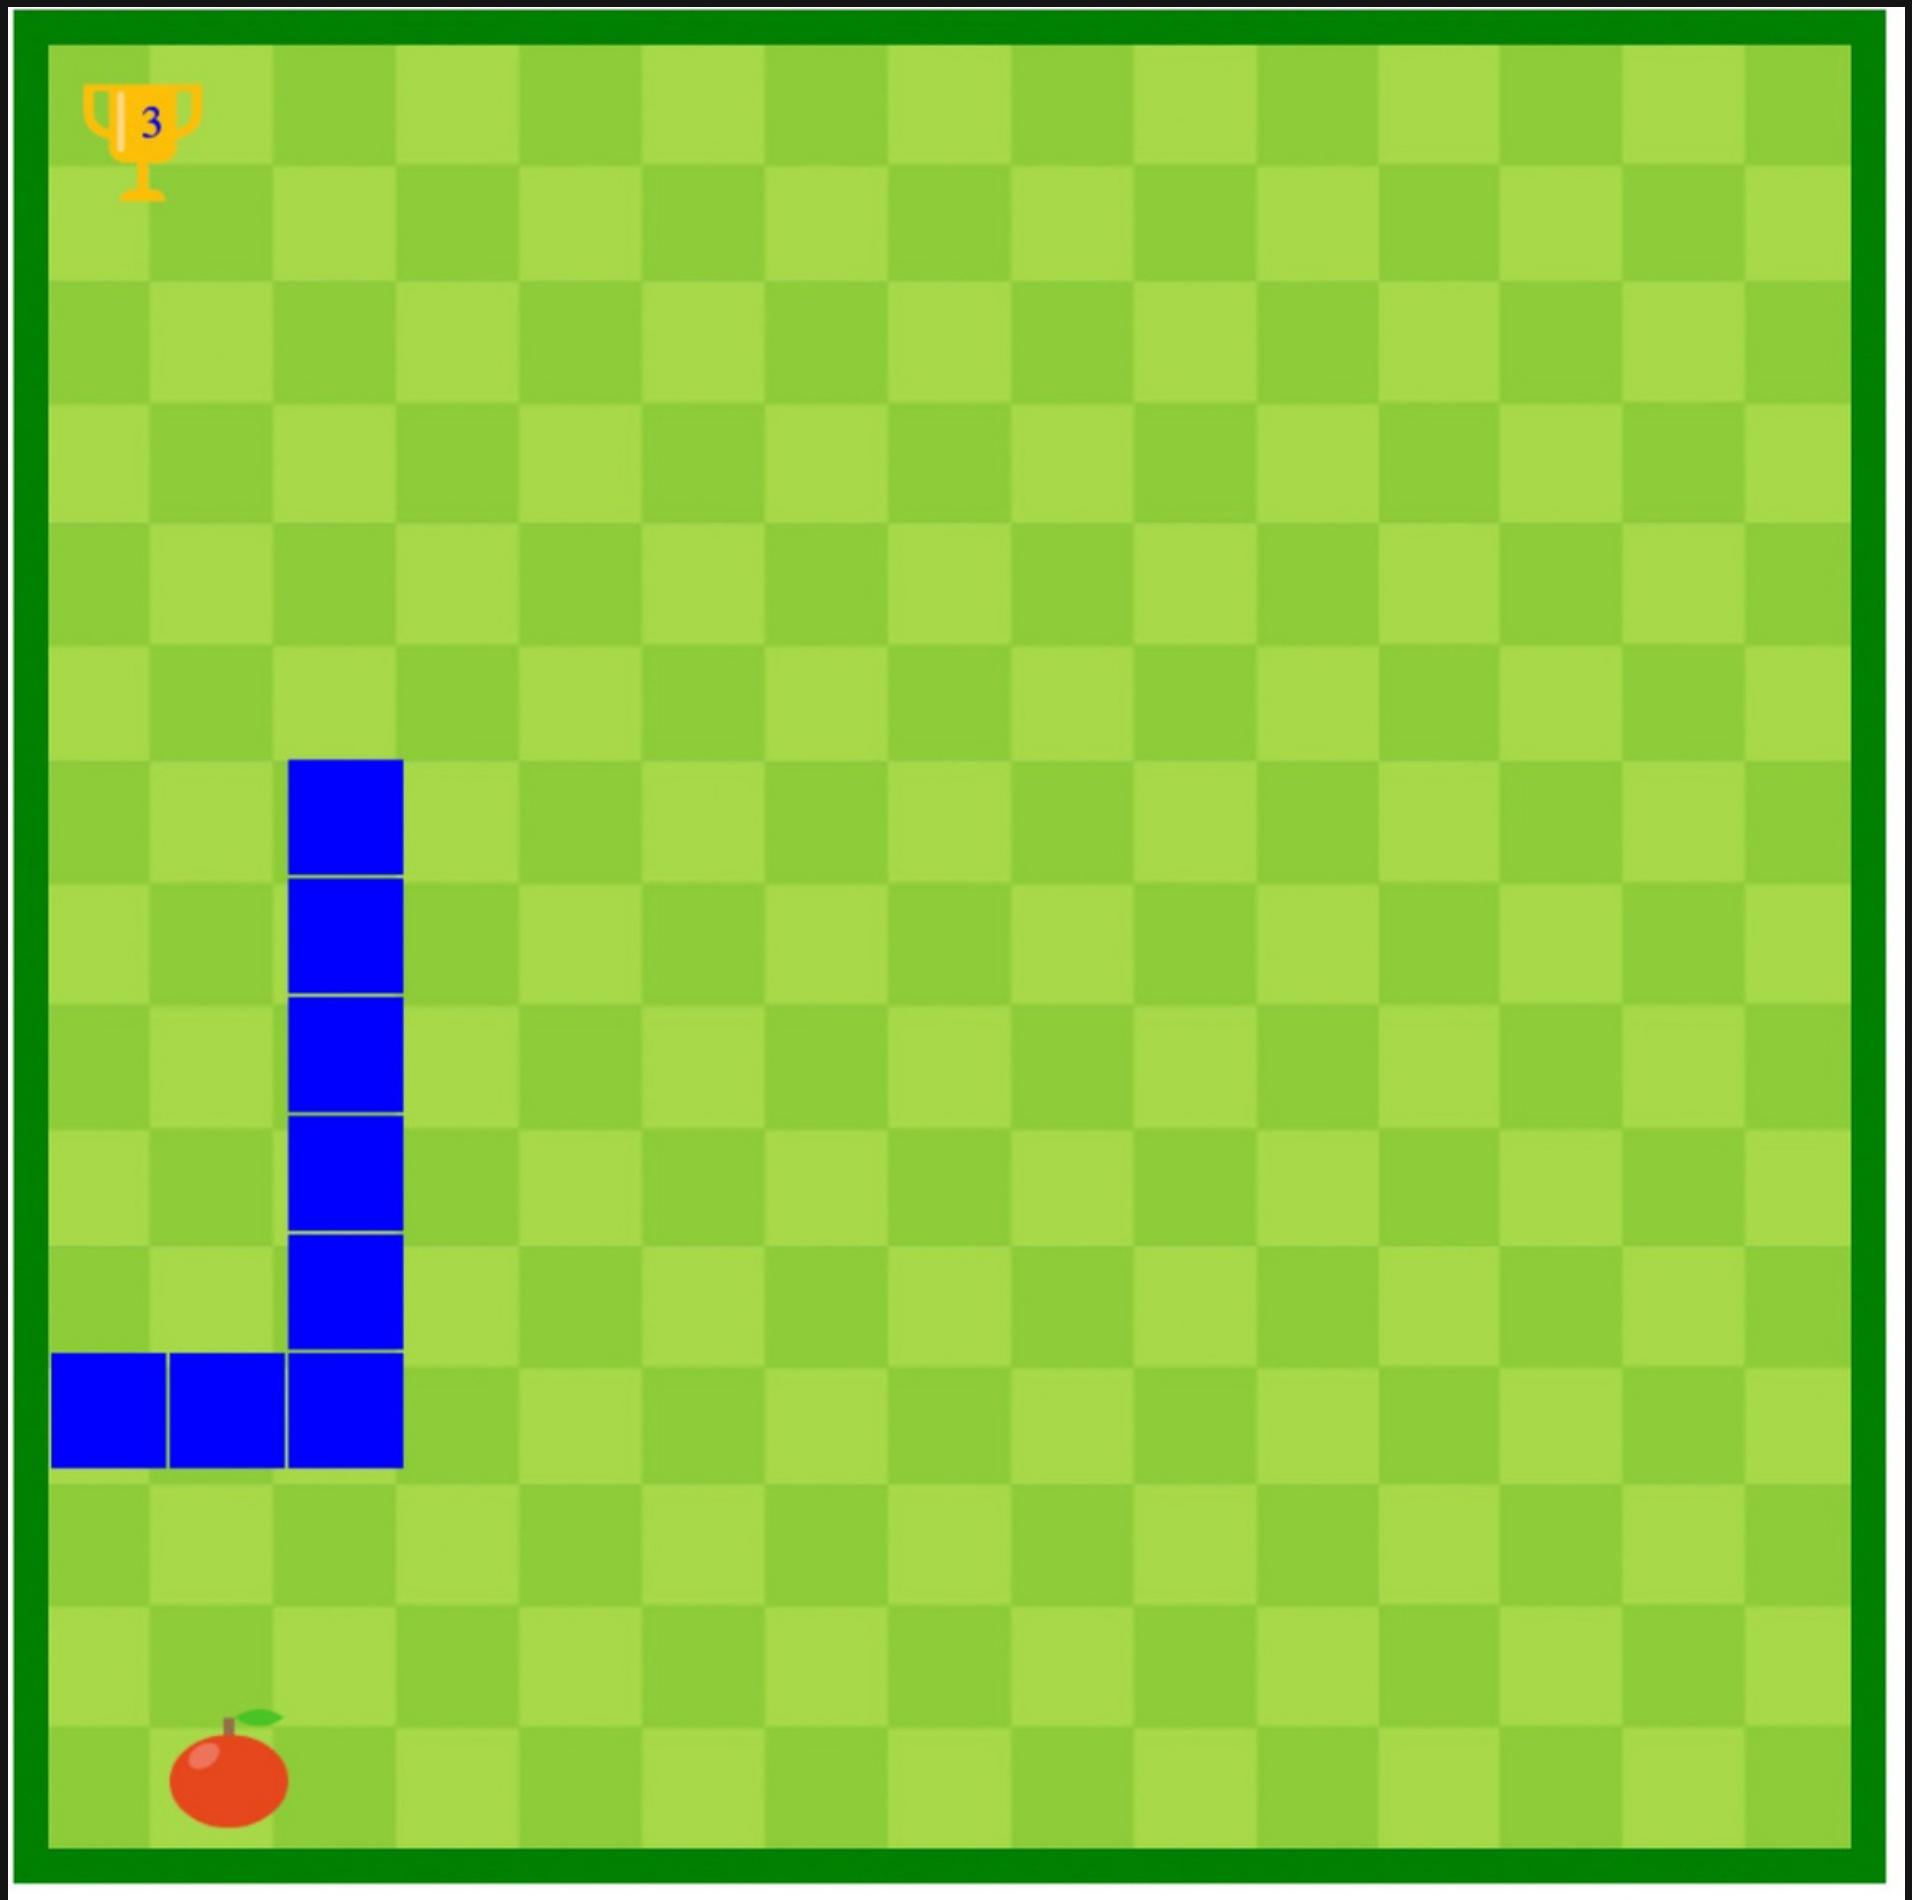

Restart

CLASSIC SNAKE

- This is a classic snake game which we all have been playing from our childhood.
- In this game, the snake needs to ear scores by eating the ball but it will also increase its size.
- The snake will die if it touches itself or the frame. You (the player) control a virtual "snake" which roams around its little world eating food pellets and trying to avoid its demise by running into itself or the edges of the world.
- With each food pellet you (the "snake") eat, you grow stronger and larger; in turn making it increasingly difficult for you (the "snake") to continue your existence.

Conclusion

In this Project, we tried to create a platform where all old and classic fun games are brought together in one website(GameJinxx), bring back the saying. "OLD IS GOLD". We made the landing page very user friendly and attractive so that people of all ages find it comfortable to use, For now we have added 4 games but we aim to add more games in the upcoming chapter of our Project, which we will be making with Different Algorithms.

Thank You
